

# Chimney Covers

## Custom-Made Skirt Type

### ALUMINUM

Aluminum Skirt Type Pictured

#### ALUMINUM

Custom covers can be built to fit virtually any size chimney. Aluminum is recommended for most applications to supply low cost and low maintenance protection.

Maximum base size: 60" wide x 96" long.

### STAINLESS STEEL

The hood overhangs masonry approximately one inch on both sides and ends. 4 $\frac{3}{4}$ " skirt protects cement crown from deterioration due to weather.

#### STAINLESS STEEL

Stainless Steel is recommended for use with wood, coal, or oil burning. Backed by the HY-C Lifetime Limited Warranty. Maximum base size: 48" wide x 96" long.

### COPPER

Copper Skirt Type Pictured

#### COPPER

Enhance the beauty of your home while protecting your chimney with a copper custom-made cover. Match your copper trim, gutters or awnings.

Maximum base size: 38" wide x 88" long.

Stainless Steel and Copper Skirt Type models are constructed in the same manner. Please visit our website for details.

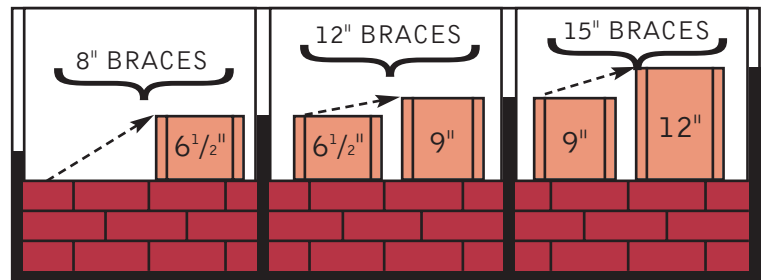

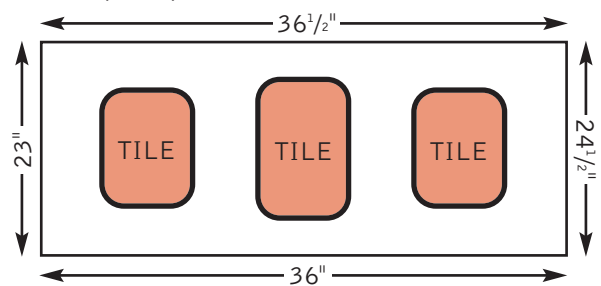

#### HOW TO ORDER:

- 1) Measure the outside dimensions of all four sides of the top row of brick. We must have all four dimensions and they must be exact!
- 2) Measure the tile height from the top of the first row of brick, to the top of the tallest tile.

Any questions call: 1-800-325-7076

Standard 8" braces and expanded metal mesh are used when flue tile plus mortar height is 6 $\frac{1}{2}$ " or less. If tile height is greater refer to the chart.

Example Top View

Eight stainless steel screws hold the cover securely onto the corners.

All Custom Covers Shipped Knocked-Down.

All Units  $\geq$  32" Width Will Be Shipped With a Minimum of 12" Mesh.

**Note:** In situations where Oil or Coal is burned, or when Wood/Pellets are used as primary source of heat, do not use Aluminum or Black-Painted Galvanized Steel Covers.
